PROFILE

Senior portfolio and programme leader with over 20 years of experience across public sector, infrastructure, and regulated environments. Trusted by executive leadership teams and governance forums to provide clear, well-reasoned advice on investment priorities, programme performance, and delivery risk. Experienced leading complex portfolios with accountability for governance, assurance, performance reporting, and benefits realisation. Brings a systems-level perspective to portfolio planning and sequencing, with a track record of navigating politically sensitive environments and building strong relationships with iwi, scheme committees, funding partners, and senior stakeholders.

LEADERSHIP PHILOSOPHY

I lead by creating clarity, empowering people, and removing barriers to delivery. My focus is building sustainable capability — leaving teams stronger, more confident, and less dependent on vendors once the work is done.
